## THE SCIENTIFIC WORK OF MORRIS LOEB (CLASSIC REPRINT) (PAPERBACK)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from The Scientific Work of Morris Loeb This volume is published as a memorial to Morris Loeb, a man of rare gifts who was called in his prime from his many-sided activities. The book will serve to make more accessible the thoughtful and suggestive writings of one of the American pioneers of the new physical chemistry. All the publications of the late Professor Loeb bearing upon scientific topics have here been brought together, except a few brief reviews in Italian possessing only transient interest; and there have been added such parts of several essays found in manuscript as he might have been willing to have printed. The collected papers have been divided into two groups; the first includes those of a general character (such as essays, lectures, and reviews), and the second those recording the results of his original experimental researches, which are more technical in their nature and less generally comprehensible. This division into two groups was made in order that essays having general interest should not be lost to the average reader by being hidden among scientific papers beyond his comprehension. In each group the papers have been arranged in chronological order. Of those found in manuscript, parts of three discussions of the same subject have been welded together so as to make one consistent essay and placed at the beginning of the first group under the title The Fundamental Ideas of Physical Chemistry. The first part of this essay was evidently given as the introductory lecture of a course on physical chemistry at Clark University in 1889. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more...
